SUNAPEE — 1965

The year 1965 has witnessed the accomplishment and the addition respectively of many improvements and capital additions to our town. While some of these, particularly of a physical nature, are the result of the generosity of interested persons, others have been financed by long term serial notes which have increased our town debt by slightly in excess of \$35,000.00. Both are an investment in the present and the future and we feel that both will make Sunapee a better town to live in.

Chief among the physical additions are the new parking lot on River Road, the Leo L. Osborne Memorial Pool adjacent to the pumping station, and the acquisition of that land down the valley in back of the old Hame Shop to new Route #103B. To be more specific: the parking lot on River Road replaces two old buildings and provides adequate and much needed space for more than thirty parked cars. It is to the great credit of our highway department that this project has reached its present stage. It is hoped that further landscaping of this area can be affected before the summer season The Leo L. Osborne Memorial Pool, envisaged by our planner, was made possible by the generosity of Mr. and Mrs. William T. Baird, The Osborne Memorial Fund and others. While this project is not entirely finished, it is hoped and planned to have this area completed by July 1, 1966.

Future plans for the town include a park area from the old Hame Shop down the banks of the Sugar River to new Route #103B. This is a long range project, and the impetus to further it was provided by Mr. Dexter D. Coffin's gift of the land formerly owned by the Public Service Co. of N. H. It is the thought of many that the natural beauties of the area, when properly cleaned of brush and thinned of trees, will be second to none in the state and will prove to be a tremendous asset to the town. Further, the old cement retaining wall extending from the I. O. O. F. building east to Cooper Square is gone, and a handsome natural stone-faced wall replaces it. Still other improvements include the extension of year-round water service on Lake Avenue at Georges Mills, an improved launching ramp at Sunapee Harbor for boats, and general improvements of our highways plus several additional street lights for the convenience of the public.

Our capital improvements are headed by the most obvious; the new Highway Garage on Sargent Road and the new Hose #3 Fire Station at Georges Mills. They are a steel and a concrete block building respectively and both fill a long wanted need which will serve the town for many years in the future. Special mention should go to members of Hose #3 for their physical and financial help in building their new quarters. And despite the busy schedule of the summer season the Highway Department aided materially in helping to make their efficient building ready for use.

Pursuing the policy of up-grading our equipment, a new D-4 Bulldozer was purchased for the Highway Department. This machine replaces a small dozer which was obsolete insofar as our requirements are concerned. Also the department purchased a power sweeper, a machine much needed for cleaning roads By the delivery of a Maxim Fire Truck, 750 gal. per min. Pumper to our central fire station, we acquired further up-to-date equipment, and at the same time Hose #3 benefited by the transfer to its new station of the truck which the new Maxim replaces. To this last named has been installed a rebuilt 500 gal. per min. pump, upgrading the machine and the whole Hose #3 unit.

During the year your Selectmen and members of the Planning Board have had many conferences with representatives of Shurcliff & Merrill who are preparing a Master Plan of the town. The Water Commissioners and members of the School Board have also contributed their time and information at special meetings in order to make this invaluable record complete and accurate. It is anticipated that the finished report will be available for distribution before the end of the year.

Without the cooperation of all departments of the town, as a town we could not have accomplished much for the well being and the convenience of our residents and our guests. Your selectmen are well aware that such teamwork is necessary, and wish to express their appreciation for the loyalty and zeal of every employee of the town who makes this possible.

Respectfully yours,
Selectmen of Sunapee
JOSEPH O. FLEMING, Chrmn.

ENGINEERS' REPORT

SUNAPEE FIRE DEPARTMENT

From December 1st, 1964, to November 30, 1965, the Fire Department answered a total of thirty alarms of which twenty-seven were in the town of Sunapee. In addition to this there were four brush or grass fires.

The fire truck authorized by the last town meeting was delivered by the Maxim Company in November and successfully passed the Underwriters Tests. The truck was used at the recent major fire in Newport and performed remarkably well.

The new station in Georges Mills is now in use although work remains to be done on the exterior. A re-built front end pump has been installed on Engine Three which is housed in the new station. We are planning to hold an open house this spring to display both this station and the new equipment in Sunapee.

While the water main was being extended on Sargent Road it was our opinion that some necessary changes in the Water system at the Sunapee Station should be made. This was done and we are now able to load our equipment with water while inside the station and a sprinkler system can be installed at a later date.

Following a trend throughout the country your Fire Department has been receiving more calls each year not only for fires but for many other types of emergencies. We will continue to make every effort to give you good service and can be contacted by dialing 763-5555.

Respectfully,

DAVID W. SHERBURNE, Chief

HENRY W. TROW

REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

Most of us who live in New Hampshire and the thousands of vacationists that visit us every year love the State for the variegated woodlands that encircle our clean lakes and clothe the hills and mountains. Most of us appreciate these values, but still there were enough careless people among us to cause over 880 grass and woodland fires to start in 1965. True this was a much dryer than normal year but this should have meant the use of extra care. Fortunately the fire fighting forces have held the line against such careless acts. It is up to each one of us to be ever mindful that a spark or flame is a potential fire.

We Must Be Careful:

1. To teach our children the danger in lighting matches
2. To never discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump. If you must burn rubbish or brush:
 - a. Always get a permit to burn from the warden.
 - b. Start your fire late in the day after 5:00 p. m.
 - c. If burning a field or brush have equipment and adequate help on hand. The heat from your fire creates its own draft to spread fire.

Our carelessness with fire is costing our State and Towns thousands of wasted dollars in suppression and hundreds of acres of destroyed woodlands. Yours never to enjoy.

ABBOTT LIBRARY REPORT

For Year Ending December 31, 1965

The improvements made at the Library this year are as follows: The basement project was started, the basement walls were waterproofed from the outside, a drain was installed and a new floor was laid. Heating ducts were connected to the present heating system. This is a beginning but our need for more space immediately is so pressing that it is hoped we may be able to complete the project this year.

The outside appearance of the Library has been much improved by the Elizabeth Dorr Coffin Memorial fund. New plantings of shrubbery were made beside the entrance and along the front of the building and the lawn was treated for weeds and reseeded.

Improvements made by the Friends of the Library included the installation of drapery rods and purchase of material for draperies which were sewn and hung by volunteers from the group, and two coats of cement paint were put on the basement walls by volunteers also. A large window fan was purchased and installed by the Friends. Mrs. Elizabeth Colcord who has been Friends President this year, donated a vacuum cleaner to the Library. The Friends sponsored an exhibit of books by New Hampshire authors which was arranged by the librarian for the observance in April of National Library Week. The Friends also sponsored several movie programs which were held in the Library during January, February and March.

The Board of Trustees made application in January for inclusion of our Library as an affiliate in the Statewide Library Development System. Our first benefit derived from this was a grant of \$125 in reference books which greatly improved our reference collection. We now attend quarterly book selection meetings which are held in

member libraries with State Library Consultants attending. We are able to buy our books under a centralized purchasing and cataloging system through the State Library and obtain a discount of 38%. The State Library now offers extension courses through the University of New Hampshire which are given in the various districts instead of just at Durham. The first 10 week course was given in Keene this Fall which this librarian attended. The State Library provided the tuition and text book and the Board of Trustees voted to pay the librarian's transportation expense. This Library also received a State Aid grant of \$100 for books to strengthen our young peoples collection with replacements and standard titles. These were received in December and are being placed on the shelves.

I have attended several district and State Library meetings with members of the Board of Trustees and members of the Friends of the Library. I wish to express my appreciation to the Library Trustees for all the assistance they have given me.

Respectfully submitted,

MABEL S. DAVIES,

Librarian

In February a meeting was held at Claremont General Hospital to discuss the establishment of an orthopedic clinic in that city sponsored by the N. H. Board of Health. This clinic is now functioning and is a convenience for patients in this area.

The Sunapee Woman's Club assisted by the Bartlett Fund financed the dental clinics with matching funds from the state. The Salvation Army and Red Cross also assisted in dental care. The Lions Club has been very cooperative in obtaining glasses for needy patients.

I wish to thank Dr. Walker, Dr. Armen, all organizations, town officials and members of the Lake Sunapee Nursing Association for their interest and cooperation in our health program.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the Citizens of Sunapee:

Enrollment

The enrollment for the school year 1965-66 is 297 (an increase of 12 over last year) — divided as follows:

Elementary	(Grades 1- 6)	155
Junior High	(Grades 7- 8)	51
Senior High	(Grades 9-12)	91

The total number of students over the last three school years shows a moderate but not spectacular increase:

1963-64	— 263
1964-65	— 285
1965-66	— 297

The present size of elementary classes is within the generally acceptable range. However, if this same, or a greater, growth factor continues for the next three to five years, we will definitely need additional space.

Salary Schedule

The Schedule adopted last year continues in effect for the next year with the present staff members due to move another step toward their proper place—based on training and years of experience.

The base salary for the Bachelor's degree was set last year at \$4,800. This figure will not be nearly as competitive for the 1966-67 school year as a number of New Hampshire communities have established beginning salaries at \$5,000. or above.

Public Law 89-10, Title I and II

Sunapee is eligible for allotments under two Titles of the Elementary and Secondary Education Act of 1965.

Title II eligibility is allotted on a Supervisory Union basis. Sunapee will be entitled to \$520.20 of library and other instructional materials this school year and a similar amount next year.

\$623.82 is available under Title I. It is recommended that this amount be used to purchase specialized materials to be used by the teachers in the improvement of reading instruction.

Funds under Titles I and II are out-right grants and do not require matching funds as does the National Defense

Education Act of 1958 which we have utilized for purchases in Science, Math, and Languages for a number of years.

Preliminary Report on Schools to Sunapee Planning Board

The members of the Sunapee School Board, the School Principal, and the Superintendent of Schools were invited by the Sunapee Planning Board to meet on January 5, 1966. (The School Board has asked me to include some information from that meeting.)

The Preliminary School Report from Shurcliff and Merrill, the professional planners engaged by the Sunapee Planning Board, contains seven pages. Briefly, it indicates that the Central School sits on a site "too small for a school of its size and its related facilities."

Short Term Projection

In an analysis of school enrollments during the period 1956-65, the Report says: "We found nothing to suggest any substantial growth, only what appears to be normal fluctuations." It further states: "High School enrollments will remain about 90 to 100 pupils until the mid-1970's."

Long Term Estimates and Future Needs

Data and statistics indicate that much of the population growth will include adults, especially the retired. Barring unforeseen circumstances, the Report indicates there should be no great pressure on Central School's capacity for the next several years. (Personally, I feel this could be too conservative if we continue to experience even the moderate elementary growth of recent years.)

The Report continues: "... by 1980 or so, and preferably much sooner, the Town will have to decide what to do with Central School."

Recommendations

"Not only is the high school inefficient to operate, but the students are deprived of the usual stimulation, competition and wide curriculum which is normal with larger classes. Because of these factors, we recommend that the Town plan to join a regional high school district whenever the chance becomes available. While Central School's capacity will sufficiently handle the foreseeable situation for the next 15 years or so, if an opportunity presents itself it could be to the Town's advantage to participate in the formative discussion stages of a new regional high school district

(perhaps with Newport and other nearby towns) rather than to wait until the entering of a regional high school district only on terms already established by others.

"Therefore, in the long run, Central School should be used only as an elementary junior-high school (grades 1-9). Under this set-up it would serve the Town's school needs for many years to come. Similarly, high school students, attending a larger regional school would receive a far better education at lower unit cost than is possible to provide either presently or even in the foreseeable future in a separate Sunape High School.

"In any proposed district we would expect a regional high school to be located in a Town which is central to the others and presumably in one of the more populated towns such as Newport. Therefore any prediction of the location for such a school at this point would be pure conjecture, and for this reason no location in Sunapee is shown on the Master Plan Map.

"Under the above considerations, the Town would need no new elementary schools until some time after 1990. We recommend acquisition of one site, however, for multi-purpose use which eventually may also include a new school."

It should be re-emphasized that the material presented is only a **preliminary** report. Some suggestions and changes came out of the Joint Meeting of School Board and Planning Committee. Certainly a good deal of consideration, thought, and long-range planning should accompany "the most important service (and the most expensive) a community provides its young people — education."

Respectfully submitted,

REPORT OF TEACHER CONSULTANT

The summer school program for this supervisory union was again provided for remedial classes in reading and mathematics (elementary grade levels) and for personal typing (junior-senior high school levels). While there were some factors preventing greater participation, some students from Sunapee did enroll in these programs. Perhaps the availability of federal funds will make possible fuller participation in the future.

Once again we are pleased to offer an advanced science course to high school juniors and seniors selected by the science and guidance departments. Mr. Clayton E. Fisher of New London again presented "Chemicals That Live" — a study of the nature and behavior of some substances that make up living bodies. The students attending this once-a-week evening course did so primarily for personal enrichment and a desire for increased knowledge, rather than for any additional credits which might have been gained.

For the first time, an advanced course in Art and Oil Painting was offered to high school students, selected by Mr. Ronald Wyman who also taught this once-a-week evening course.

The elementary school curriculum continues to be updated in terms of newer materials and methods. This has been true particularly in the areas of mathematics, reading, science, and now the social studies. Of possible significance in this area is the Keene State College extension course, "Curriculum Development" being offered for teachers throughout this area and to be held in Newport during the second semester. This course was prompted by a felt need to strengthen and revise the social studies curriculum and promises to give support for further study and improvement of instruction.

The intermediate grade students of this area were privileged to attend a lecture and demonstration by the National Aeronautics and Space Administration (NASA). This provided an interesting and informative program on the nature and purpose of this country's space efforts to date.

With the coming of Public Law 89-10 and the community's acceptance of federal funds, it is hoped that greater attention can be given to the "educationally deprived" youngsters in our classrooms. Plans are now being made to propose an acceptable project to seek some specialized equipment for Sunapee for the remainder of this school year (1965-66).

I wish to express my appreciation for the assistance and cooperation of all school personnel and other citizens who have help strengthen the total educational program in this community.

Respectfully submitted,

ALPHONSE J. SOUCY

SCHOOL WARRANT

The State of New Hampshire

To the Inhabitants of the School District of Sunapee qualified to vote in District affairs:

You are hereby notified to meet at the School Auditorium in said District on the 8th day of March 1966 at nine of the clock in the forenoon to act upon the Articles set forth in this Warrant. Articles 1, 2, 3, 4, and 5 of this Warrant covering the election of Moderator, Clerk, Treasurer, Member of the School Board, and Auditors will be acted upon at 9 o'clock a. m. and voting will be by official ballot and check lists and the polls will remain open for this purpose from 9 o'clock a. m. until 7 o'clock p. m. At 1:30 o'clock in the afternoon the remaining Articles will be acted upon.

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Treasurer for the ensuing year.

Article 4. To choose a Member of the School Board for the ensuing three years.

Article 5. To choose one or more Auditors and such other Officers and Agents as the voters may judge necessary.

Article 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and to pass any vote relating thereto.

Article 7. To see if the District will vote to raise and appropriate \$199,585.98, as recommended by the School Board, for the support of schools, for the payment of salaries for School District Officials and Agents, and for the payment of statutory obligations of the District; and to authorize the application against said appropriation of available income estimated at \$13,925.00.

Article 8. To see if the District will vote to accept the provisions of Public Law 89-10, designed to improve educational opportunities with particular reference to children of low-income families, and to appropriate such funds as may be made available to the District under said federal act

for such particular projects as may be determined by the School Board. Further, to see if the District will authorize the School Board to make application for such funds and to expend the same for such projects as it may designate.

Article 9. To see if the District will authorize the School Board to make application for and to accept, on behalf of the District, any or all grants or offers for educational purposes which may now or hereafter be forthcoming from the State of New Hampshire and/or United States.

Article 10. To transact any other business that may legally come before this meeting.

Given under our hands this 14th day of February, nineteen hundred and sixty-six.
